## TEXT OF AGREEMENT.

Proposition Submitted to China by the Co-operating Powers.

## REVIEWS THE CHINESE ATROCITIES

Conditions on Which Peace Is to Be Restored Set Forth in Twelve Articles—Now It Is Up to the Celestial Empire to Accept.

Washington, Dec. 24.—The state department has made public the text of the joint note to the powers to China. The English version is understood to be in substantial equivalence with the French text of the note addressed to the government of China as agreed upon by the representatives of the co-operating powers at Peking, Dec. 4, 1900, and substantially amended before signature. The note recites the numerous incidents of the Boxer uprising, the assassination of Baron von Ketteler, and the relief of the legations at Peking by the allied troops, whereupon the note remarks:

Inasmuch as China has recognized her responsibility, expressed regret and evinced a desire to see an end put to the situation created by the atrocious disturbances, the powers have determined to accede to her request upon the irrevocable conditions enumerated below, which they deem indispensable to expiate the crimes committed and to prevent their recurrence.

### Conditions For Peace.

First—The dispatch to Berlin of an extraordinary mission, headed by an imperial prince, in order to express the regrets of his majesty, the emperor of China, and of the Chinese government for the assassination of his excellency, the late Baron von Ketteler, minister of Germany.

The erection on the spot of the assassination of a commemorative monument, befitting the rank of the deceased, bearing an inscription in the Latin, German and Chinese languages, expressing the regrets of the emperor of China for the murder.

Second—The severest punishment for the persons designated in the imperial decree of Sept. 25, 1900, and for those whom the representatives of the powers shall subsequently designate.

The suspension for five years of all official examinations in the cities where foreigners have been massacred or have been subjected to cruel treatment.

Third—Honorable reparation to be made by the Chinese government to the Japanese government for the murder of Mr. Selyma.

Fourth—An expiatory monument to be erected by the imperial Chinese government in every foreign or international cemetery which has been desecrated or in which the graves have been destroyed.

Fifth—The maintenance under conditions to be determined by the powers of the interdiction against the importation of arms as well as of materials employed exclusively for the manufacture of arms and ammunition.

Sixth—Equitable indemnities, governments, societies, companies and individuals, as well as for Chinese, who, during the late occurrences, have suffered in person or in property in consequence of their being in the service of foreigners. China to adopt financial measures acceptable to the powers for the purpose of guaranteeing the payment of said indemnities and the interest and amortization of the loans.

Seventh—The right of each power to maintain a permanent guard for its legation, and to put the diplomatic quarter in a defensible condition, the Chinese having no right to reside in that quarter.

Eighth—The destruction of the forts which might obstruct free communication between Peking and the sea.

Ninth—The right to the military occupation of certain points, to be determined by an understanding among the powers, in order to maintain open communication between the capital and the sea.

Tenth—The Chinese government to cause to be published during two years in all the subprefectures an imperial decree—(A), embodying a perpetual prohibition, under penalty of death, of membership in any anti-foreign society; (B), enumerating the punishments that shall be inflicted on the guilty, together with the suspension of all official examinations in the cities where foreigners have been murdered, or have been subjected to cruel treatment, and (C), furthermore, an imperial decree to be issued and published throughout the empire ordering that the governors general (viceroys) and all provincial or local officials shall be held responsible for the maintenance of order within their respective jurisdictions, and that in the event of renewed anti-foreign disturbances, or any other infractions of treaty occurring, and which shall not forthwith be suppressed and the guilty persons punished, they, the said officials, shall be immediately removed and forever disqualified from holding any office or honors.

Eleventh—The Chinese government to undertake to negotiate amendments to the treaties of commerce and navigation considered useful by the foreign powers, and upon other matters pertaining to their commercial relations, with the object of facilitating them.

Twelfth—The Chinese government to determine in what manner to reform the department of foreign affairs and to modify the court ceremonies concerning the reception of foreign representatives, in the manner to be indicated by the powers.

Until the Chinese government has complied with the above conditions to the satisfaction of the powers the undersigned can hold out no expectation that the occupation of Peking and the provinces of Chili by the general forces can be brought to a conclusion.

## WHAT LEE MEANT.

Explains Remarks About Our Flag Floating Over Cuba.

St. Louis, Dec. 24.—General Fitzhugh Lee, who is in the city as the guest of the New England society, was interviewed in regard to his speech made on the St. Louis Merchants' exchange Friday in which he is said to have made the prediction that the American flag would continue to float over the island of Cuba. He said: "The meaning I intended to convey was that the American flag would float over Cuba until a stable government was formed that will be capable of protecting life and property and giving confidence to capital. The United States has promised the Cubans self-government and will carry out its promise. Upon the Cubans will rest the responsibility of determining whether the government shall be permanent or otherwise."

Under the escort of W. B. Homer, president, and a committee from the New England society of St. Louis, General Lee and staff, with the women of the party, went to Jefferson Barracks, where the general and his party met the officers at a luncheon and inspected the post. In the afternoon a reception was given the distinguished visitors by the University club.

### Another Claim on Owens.

Middlesboro, Ky., Dec. 24.—The general belief here is that John Owens was not a name assumed by the murderer hanged at Paris, Ill., but that he was John Owens of Bell county, Ky. Three men by that name have lived in this section, all but one have been heard from; and it is believed he is the man hanged at Paris. Descriptions given to John Owens strengthen this belief. The Paris man could not have been the son of T. H. Wolsam, whom he said lived southeast of this city. There is no such resident by that name living in this section.

### Kentucky-Indiana Line.

Frankfort, Ky., Dec. 24.—In the court of appeals the petition for a rehearing of the Kentucky-Indiana state boundary line dispute was overruled. In an opinion concurred in by a majority of the judges, Judge Durrell holds that Kentucky has exclusive jurisdiction on the Ohio river to the low water mark on the Indiana side. Judge Hobson delivered a separate opinion holding that Indiana has concurrent jurisdiction over the river. The suit grew out of an Indiana civil attachment served on a steamboat, and it is held for want of state jurisdiction.

### Strikers Shot.

Antwerp, Dec. 24.—A fresh attack was made by striking dock laborers and others on non-unionists, at the Ockerill wharf. A detachment of 50 policemen charged the strikers, firing revolvers into the crowd. Thirty men were wounded, 10 severely. The strikers withdrew, taking some of their wounded. Their attitude is menacing. The police are being reinforced and more fighting is imminent.

### Influenza Epidemic.

St. Petersburg, Dec. 24.—The influenza epidemic here is so severe that the mortality return for the past week has been the highest for a decade. A meeting of physicians was summoned to discuss remedies, but scarcely half dozen responded to the call, the rest being overworked, or themselves victims of the malady. The weather is conducive to the spread of the disorder, being changeable.

### Powers Case Still Pending.

Frankfort, Ky., Dec. 24.—The court of appeals adjourned till the January term without rendering a decision in the case of ex-Secretary of State Caleb Powers, charged with complicity in the Goebel assassination and sentenced to life imprisonment. This passes it up to the new court which will find four Republicans to three Democrats.

### Confessed a Horrible Crime.

Los Angeles, Cal., Dec. 24.—Edward V. Higgins, who resides in Coldwater canyon, has confessed that he killed his mother and William Sheehan, a sheep herder, with an ax Dec. 4. A body has been found in a grave on the hillside where Higgins says he buried his victims. The self-accused murderer shows signs of dementia.

### Wiped Off the Slate.

Columbus, O., Dec. 24.—Before adjourning for the holidays the supreme court of Ohio, on motion of Attorney General Sheets, dismissed all the cases against the Standard Oil company and its constituent companies, begun under the anti-trust laws of the state by Attorney General Monnett.

### Held Up and Robbed.

Mitchell, S. D., Dec. 24.—N. J. Neilson, treasurer of the A. O. U. W. lodge in this city, was held up by footpads at midnight, bound, gagged and robbed of \$250 and left lying in an alley. When found by a night watchman Neilson's hands and feet were frozen and he was unconscious. There is no clue.

## SAID TO BE CHECKED.

General Kitchener on the Boer Movement Into Cape Colony.

## NOT GETTING MUCH ASSISTANCE.

However, the Burghers Continue to Take Towns and Cut the Railways—Generals French and Clements Engaged.

London, Dec. 24.—The war office has received the following dispatch from Lord Kitchener, dated Pretoria, Dec. 22: "As far as it is possible for me to form an opinion from the reports of officers on the spot, I think the Boer movement into Cape Colony has been checked. Of the two forces that entered the colony the eastern is still north of the Zoutpansberg range, while the one that entered west appears to have been turned in the direction of Britstown and Prieska. Our troops are getting around both bodies. The Boers have not received much assistance in Cape Colony, as far as my information goes. We have armed some of the colonists, who are assisting our forces. The western column of Boers occupied Britstown and cut the railway south of DeAar junction. The enemy is being followed up.

"General French has been in contact for two days with the commandos of Beyers and Delarey, south of the Magaliesberg. He is pursuing them. The enemy have lost considerable, and Commandant Kreutz and others have been captured. General Colville engaged two separate commandos December 21 near Vloofontein with slight losses, the enemy retreating. Dewet is in the neighborhood of Senekal. Clement's force was engaged Friday south of Oliphant's Nek, but do not yet know the result."

London, Dec. 24.—Lord Kitchener's dispatches, breathing a confidence not justified by their contents, are almost the only available news from the seat of hostilities in South Africa, but telegrams from Cape Town depict the situation in anything but roseate hues. Without believing the assertion of the Transvaal agency in Brussels that 6,000 Boers have invaded Cape Colony it is quite evident that the invasion is a serious and well planned affair.

In connection with this a correspondent sends an extremely interesting letter, dated Bethulie, describing General Dewet and his doings. "Dewet has never been taken seriously enough," says the correspondent. "He is of little use to pursue him, as he fights a rear guard action and gains 20 miles while he is being fought. He is a born military genius, whose wonderful powers have kept up this phenomenal resistance."

The Cape Colony cabinet had an important sitting Sunday. It appears that the Boers have destroyed a railway bridge 90 feet long about 12 miles south of DeAar, and that no Cape mails have arrived at Bloemfontein for three days. Further anxiety has been caused in Cape Town by the discovery that, during the last two months, public bodies in out of the way places have received supplies of dynamite. The colonial government is now endeavoring to recover possession of these explosives and is removing all stores of arms and ammunition from suspected depots.

Other advices from Cape Town represent the Dutch element in Cape Colony as greatly elated over the southward progress of the Boers and boasting that the whole district of Victoria West will join the raiders. It is suspected in Cape Town that the force traveling from Zoutpans drift is not a body of Boers but one of colonials hastening to join the invaders.

A Pietermaritzburg correspondent wires: "The Boers are active between Johannesburg and Pretoria, exchanging shots with the British outposts, and it is reported that parties of Boers are hovering around Johannesburg."

### Horses For the British.

Kansas City, Dec. 24.—Captain Heygate of the British army is purchasing 50,000 cavalry horses and mules for the British army in South Africa. He came here more than a year ago to buy horses and mules for the British army, but was ordered home a short time ago because it was thought the Boer war was over. But the unexpected renewal of hostilities made the purchase of more horses and mules absolutely necessary. As fast as the animals are inspected and bought they will be sent to New Orleans and shipped to South Africa. Since the beginning of the Boer war England has purchased over 100,000 head of horses and mules in the United States.

Dayton, O., Dec. 24.—Charles Walsh, engineer aged 52, died of injuries sustained by colliding with a horse and buggy while riding a bicycle.

## CINCINNATI TOBACCO MARKET.

Factory Representatives Did Some Bidding Last Week—Prices Remain Firm.

	1900	1899
New	704	763
Old	742	683
Offerings for the week	1,216	1,173
R-jections for the week	23	310

	1900	1899
Actual sales for the week	1,03	1,140
Receipts for the week	643	1,94
Offerings year to date	70,95	79,45
Rejections year to date	10,280	14,75

Actual sales year to date, 51,645; 61,690. Receipts year to date, 55,967; 68,180. The Tobacco Plant gives the average for the week as follows: 501 hds. of new, average \$6.00 per 100 lbs.; 742 hds. of old, \$7.95; last week, 393 hds. of new, \$1.96; 911 hds. of old, \$7.40; same week of last year, 763 hds. of new, \$7.54; 633 hds. of old, \$9.18.

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

"The good demand for old tobacco noted in our last report, though then confined to a limited number of buyers, was more apparent when a greater number of factory representatives were bidding for the old tobaccos. Consequently the demand for old goods was general and prices for most grades ranged higher, good to fine fillers and cutters showing the most improvement. Stripping logs and trash at good length and showing uniform color were rather active, and, as a rule, sold at satisfactory prices. The inquiry for old smokers is stronger and prices obtained this week we think showed some improvement, still we would not quote them as higher. The top price for old leaf was 17½ cents.

"For new tobacco the market was active and firm at prices established a week ago. Filler and wrapper grades still lead in the demand for the new crop. The highest price paid for the new leaf this year, in this or any other market, was obtained for a hoghead of West Virginia at the Globe House on Tuesday, the hoghead selling for \$14.50 per 100. This was a very fine piece of tobacco and a perfect twist wrapper.

"The 491 hds. now offered brought an average price of \$6.16 per 100, ranging from \$2.40 to \$11.50. The average was 15¢ per 100 lbs. greater than that sold the previous week, which about represents the improvement in the demand for the new crop."

## THE PARTY LAUNCHED.

Autonomists Meet at Manila and Adopt a Declaration of Principles.

## PROMINENT FILIPINOS PRESENT.

Progress of Home Government on the Island of Negros In Marked Contrast With the Other Islands.

Manila, Dec. 24.—The recently organized autonomist party was launched at a meeting attended by virtually all the loyal Filipino leaders in Manila. The declaration of principles was read, and after some discussion adopted by a vote of 123, less than half a dozen declining to vote. All signed an endorsement of the platform, including Senor Paterno, one of the most influential of the former insurgent leaders, whose real attitude toward American authority has been much questioned.

The report of General J. F. Smith, military governor of Negros, shows that this island, which has had, under the entire period of American control, a substantially autonomous form of government, has progressed in marked and favorable contrast with the other islands. The attitude of the people is highly favorable toward the United States, and the largely autonomous government which they now enjoy seems to be their fitting reward, and the people are naturally desirous that it should be continued.

Advices brought by steamer from southern Luzon say that a lieutenant and 60 men of the United States cavalry attacked a large body of insurgents near Guinobatan, province of Albay. After the battle 45 dead insurgents were counted, together with many wounded. The only American casualty was the wounding of a sergeant, who was cornered by several rebels and struck in the leg by a bolo. The rebel loss was the heaviest recorded among the recent encounters. The cutting of the wires delayed the official report of the engagement.

## Postal Irregularities.

St. Louis, Dec. 24.—Postoffice inspectors have been diligently, but secretly, at work for two weeks probing irregularities here, and suspended three of the oldest clerks in the service on the charge of destroying mailmatter. The crime is punishable by imprisonment.
